

HubPoint Type-C 5-in-1 Hub

Versatile productivity designed to complement your style

This sleek all-in-one hub offers the convenience of charging and connecting your favorite device simultaneously, even when multiple peripherals are attached or data is being transferred. The integrated USB Type-C charging port enables users to connect a MacBook or other devices equipped with the latest USB technology. This versatile hub makes it easy to boost the productivity of your workstation by adding multiple high-performance peripherals at blazing fast speeds of up to 5Gbps. Compact in size and with an attractive aluminum case, the hub is perfect for portable use on the road or to complement your desktop or laptop in your home.

Highlights

- Advanced all-in-one hub solution for power, data transfer and instant USB port expansion
- Features a USB-C passthrough port, two USB 3.0 data/charging ports, one SD and one micro-SD card slots
- Multifunctional, all ports can work together at the same time
