

# Flexor

Semi-vertical wireless mouse

### The most comfortable mouse for the highly productive work environment

If you need the best mouse to help you get some work done providing maximum fingertip control, the **KMW-750** from Klip Xtreme is definitely one of the most reliable mice around. It was thoughtfully sculpted to provide a more comfortable grip to work efficiently during long hours in front of the computer. The mouse features a large detachable flange with soft rubber padding, which offers extra comfort and supports the natural hand and wrist posture. Its ergonomic design promotes greater operability by having its six buttons conveniently positioned right where your fingers rest, avoiding unnecessary strain. Armed with a high-definition sensor with selectable speeds, the mouse delivers flawless tracking on virtually any surface.

### Highlights

- Wireless 6-button optical mouse, with a detachable flange with rubberized pad support for maximum ergonomic comfort
- Comfortable grip design helps a more natural position of the wrist and forearm
- Convenient regular size for the best fit
- Plug and play configuration
- Made of quality materials, the mouse features a rubberized mate finish coat, for an enhanced feel and smarter control
- On-board storage compartment protects the USB receiver from loss and damage
- Adjustable 800/1200/1600 DPI resolution
- One premium AA Energizer brand battery included
