

Universal projector ceiling mount

Optimum projection from any angle

Enhance your presentations and guarantee their success with this reliable and functional Universal Projector Ceiling Mount from KlipXtreme. Compatible with nearly all standard and home theatre projectors weighing 30lbs or less, this mount is quick and easy to install as it comes pre-assembled right out of the box. Its low profile design holds the projector very close to the ceiling to keep it out of the way. It features extendable legs and a unique plate configuration to accommodate diverse mounting patterns. Its durable, all metal construction along with its cable management system make it the perfect addition to use it conveniently from business meetings to classrooms or simply around the house.

Highlights

- Low profile and lightweight construction
- Universal mounting pattern and compatibility for most projectors up to 30lb
- 360° rotating joint for optimal viewing angles
- Swiveling joint which offers maximum viewing flexibility
- Adjustable support legs to fit most projectors with ease
- Cable management system to keep everything organized
- Hassle-free assembly and installation
- Stylish design to complement any décor
- Includes complete hardware kit
