Project the big picture

Grab the attention of your audience by dramatically expanding the viewing potential of your presentations, videos and images with this reliable and versatile Universal Projector Ceiling Mount from Klip Xtreme. Compatible with nearly all data and home theater projectors weighting 33lb or less, this support is quick and easy to install. The supplied extension column incorporates an internal cord management channel as well as security screws for a reliable connection at every point. Equipped with extendable legs and a unique plate configuration, the **KPM-610B** accommodates diverse mounting patterns, which also fits most projector models available in the market. Its sturdy construction combined with its extension pole, offers great flexibility to achieve the desired length, especially in rooms with high ceilings, commonly found in hotels, theaters, conference rooms, convention centers, or anywhere a projector needs to be mounted!
