Music you can see, energy you can feel

Let the new **KWS-612** speaker fill your space with music and a prism of colors. Designed to enhance your listening experience, it features five different illumination themes to match your mood and sense of style. This unique speaker, which is also fitted with a built-microphone, seamlessly goes from streaming music to taking hands-free phone calls. Equipped with the Advanced Audio Distribution Profile (A2DP), it works with any Bluetooth®-enabled device –such as your smartphone, tablet, iPad or notebook. Non-Bluetooth® audio devices can also be easily connected via an auxiliary analog input for added functionality. Featuring a built-in micro SD™ card slot, this device can even be used as a standalone music player, independently from an external audio source. Now you can enjoy wireless freedom and see your entertainment glow with this brilliant wireless speaker!

Highlights

- Portable speaker with wireless technology, a built-in microphone and customized LED lighting modes for cool visual effects
- NFC (Near Field Communications) technology: easily pairs your mobile device with the speaker and start streaming audio without cables instantly
- Built-in power bank to charge your smartphone or mobile device
- Plays audio files directly from a micro SD™ (TransFlash) memory card.
- An auxiliary input allows connection to any device equipped with a 3.5mm audio jack (for wired playback)
