

Cinematik

5.1 surround sound speaker system
Bluetooth® compatible

1 year limited warranty

Immersive acoustics that brings your music, and your entertainment, to life

Take your ears on a journey with this true surround sound system delivered through its six-channel direct inputs. You've never heard your TV, computer, gaming console, DVD player or mobile device with this kind of richness and tone before. The spaciousness of a movie or concert's immersive sound is now possible in your home. The 6.5-inch driver of this subwoofer imparts formidable bass effects, bringing more thrill to the action. What's more, you can exercise complete control over your music from anywhere in the room with the convenient wireless remote. After trying this formidable 150W wireless surround system, you'll never want to listen to music on anything else.

Highlights

- 5.1 channel surround sound system designed to provide a life-like audio experience
- Boasts 150 watts of output power, precisely delivered by a 50-watt subwoofer and five 20-watt satellites
- Optical digital input, plus six RCA channels
- Streams music wirelessly with any Bluetooth®-enabled device from up to 33ft from the audio source
- Seamless integration of multiple audio sources: USB, SD™ card, optical and RCA, inputs
- Convenient remote to control the system
- Front facing interface with digital display

Matrix decoding transforms any common 2-channel stereo source into a 5.1 surround sound experience
