Wireless presenter

Red laser pointer

LCD display

Plug & Play configuration

Timer and vibrating alarm countdown

## Impress your audience focusing on what matters...

Feel confident every time you project a slide show or a PowerPoint presentation with the portable wireless presenter **KPP-015** from Klip Xtreme. This powerful device features a modern and ergonomic design to fit comfortably in the palm of your hand. It will draw the audience's attention to what is important while you roam around the room with ease. Its red laser beam shows up strong disregarding the background of the presentation, with virtually no lag or interference, within a range of up to 300ft. As a distinctive feature it is equipped with a rechargeable polymer lithium battery, making this device really cost effective and environmentally friendly. It comes with an LCD display and a USB receiver, which adds functionality and compatibility.

## Highlights

- Equipped with an LCD display for wireless and battery level indication, as well as timer/clock and vibrating alarm countdown status
- Features a silicone keypad with forward, backward, main screen and pointer buttons
- Comes with a rechargeable 300mAh polymer lithium battery
- Compatible with Windows® 2003, XP, Vista, 7/8/10 and above; also with Mac OS, Linux and Android system (with certain limitations)
- 2.4GHz RF with 360-degree control and wireless freedom of up to 300 feet
- It automatically enters into a standby mode when not in use to save battery life
- Embedded USB 3.0 receiver
- Plug and Play configuration; software driver is not required
- Complies with laser safety standards - it supports less than 1mW of power

## Technical specifications

<b>Device</b>	
Type	Wireless presenter
Technology	Radio frequency (RF)
Laser distance	About 200m
Laser type	Class II
Laser max output power	<1mW
Working voltage	3.6-4.2VDC
Operating system compatibility	Windows 2003, 7/8/10, XP, Vista (fully compatible) Mac OS, Linux and Android system (with certain limitations)
<b>Connectivity</b>	
Connection type	Wireless
Wireless RF frequency	2.4GHz
Wireless range	300ft
<b>USB receiver</b>	
Version	Supports USB versions: 1.1, 2.0, 3.0
Working voltage	4.5-5.5VDC
<b>Battery</b>	
Type	300mAh li-polymer battery
Charging method	Micro-USB
<b>Specifications</b>	
Product dimensions(LxWxD)	5x1.6x1in
Weight	1.3oz
<b>Highlighted features</b>	
Display	LCD display with timer, clock and silent vibrating alarm function
Warranty	One year
